

Technip continues its process to have a more diversified, international and feminine Board of Directors

September 27, 2012

The Nominations and Remunerations Committee of the Board of Directors of Technip is pursuing a recruitment process with the assistance of an international recruitment consultancy, with the objective to continue to diversify the composition of the Technip Board of Directors.

Current Board directors Marwan Lahoud and Daniel Lebègue, whose mandates come to an end at the next General Assembly will, on their request, leave the Board as part of this process.

This action ensures that Technip will continue to meet the requirements of French legislation for gender diversity at the level of the Board of Directors of listed companies (20% by 2014 and 40% by 2017).
